RUBBER MACHINING SPECIALISTS

From One Prototype to Mass Production

Are You Still Using Molds for Rubber Parts?

FROM JUST 1 PIECE

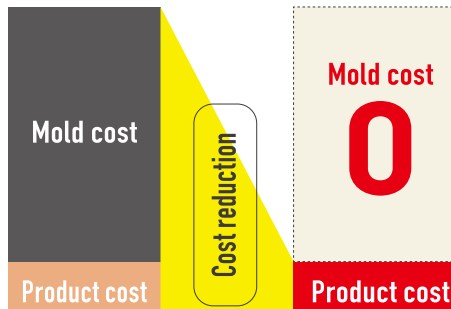

NO MOLDS REQUIRED

Reduce Lead Time Lower Cost

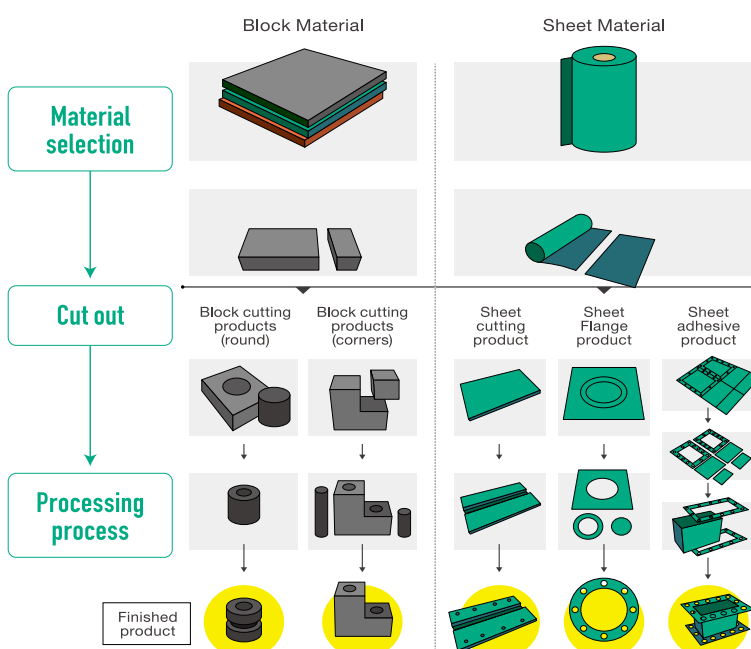

From Precision Components to Large Rubber Products We Machine All Types of Rubber Parts

How can we manufacture without a mold.

When making rubber products from scratch, generally, a mold is first manufactured. A mold requires a huge investment, at least a few thousands dollars. In addition, a minimum lot size is required for product manufacturing. In terms of delivery time, it can take up to a month to make the mold, design change can add additional cost and time.
